

# CAPACITY BUILDING COORDINATION

The project supports EURAMET's members and associates to develop a balanced and integrated metrology system.

- ◆ Provides support and coordination of capacity building instruments.
- ◆ Addresses key metrological challenges.
- ◆ Builds capacities through knowledge transfer activities.

## RESEARCH MOBILITY SUPPORT (RMS)

The RMS supports researchers from EURAMET members and associates to join an organisation in a different country to their employer.

◆  
1 – 9 months

◆  
1 participant

## MENTORING SCHEME AWARD (MSA)

The MSA provides a platform for staff from two different EURAMET members and associates, in different countries, to set up a partnership and work together on a relevant topic.

◆  
2 – 6 person weeks

◆  
1 – 6 participants

## TRAINING EVENTS (TE)

The project supports Training Events to help to develop the technical skills of EURAMET members' and associates' staff and support the development of newly qualified personnel.

◆  
1 – 5 days  
courses, workshops

◆  
3 – 10 days  
summer schools

## How to apply

Applications are submitted online through the project website:

[cabuco.cmi.gov.cz](http://cabuco.cmi.gov.cz)

There are 3 cutoff dates per 12 months.  
Last cutoff date will be in September 2027.  
The evaluation of applications is carried out by an independent Stakeholder Committee.
